We wanted to reach out to you to let you know that working with you on the project has been such a pleasure and we truly appreciate your initiative for giving us access to a full scale research project.As we complete our project we wanted to finish up with a testimonial which we would feature in our project report, so we were hoping that you could share your thoughts on our recent project and provide your overview. *

It would have gone to next level if there was not this covid outbreak. However , I look forward to work with them in future
