Nature Of Customer

GROUP - Club_Elite

IIT2018114 - Harsh Goyal
IIT2018144 - Aaditya Gadhave
IIT2018149 - Sourabh Gupta
IIT2018158 - Meet Singh Gambhir
IIT2018159 - Tushar Atrey

Instructor - Amit Kumar, Ashutosh Kumar

IV Semester, Department of Information Technology,
Indian Institute of Information Technology, Allahabad, Prayagraj.

NATURE OF THE CUSTOMER

Nature of customers: The scope of our project is associated with most of the university people and more specifically with the researchers of the universities. Our project is a research project given to us by our mentor Mr. Amit Kumar and he is also our most important customer. Our project mainly focuses on the research side.

1. M.tech students or Research Scholars: Our project is one of the projects that will further help the research scholars in their research. They can use this project to understand the similarity between various components /bugs by considering different metapaths. It can also be helpful for them to understand about the heterogeneous networks which can help them to conclude their research on this topic.

2. Faculty and staff members: Our project can also be used by the college faculties to assign the research further to various students. The project can be also used by them for explaining the working of finding different meta paths in the heterogeneous networks by the help of the code provided.

3. Developers and their development projects: The project is not useful for them as it is the research project and so it is not designed according to them.
